the gold accounts are fully confirmed. The Galveston News says it is informed by a gentleman from Holkhart, that a party of citizens who had just returned from an exploring expedition, found gold in the mountains, 70 miles north of that town, both on the surface and by digging. They brought back several lumps, all of which were valued at

\$5,950. The Austin Gazette, which has been hitherto ineredulous, fully endorses the most favorable reports, saying it can no longer entertain the least doubts, and expects soon to hear of discoveries equalling the California mines. The deeper the dig ging, the more abundant and richer is the gold. The principal region is in Lertisiano, enclosed by the Colorado on the east, the San Saba on the north,

STATISTICS OF DANCING.—An ingenious French arithmetician has calculated that the space which Subject Ginger, 10 do Pepper, a young Perisian belle, who is fond of dancing, traverses in the gay saloons of Paris, amounts, in the course of one dancing season, to four hundred and thirty-four miles and a half! He has also estimated that a French lady fond of performing the functions of a tectotum, will spin round in the waltz in one night as many times as the wheels of a steamboat revolve while rouning the distance between Dover and Calais.

FLORESCE, Ala., Dec. 12, 1849.

It not only was distressing to himself, bu such was the severity of the paroxysms that all around sym pathized with him. I advised him to try your Compound Syrup of Wild Cherry and Wood Naptha. He did so, and took one bottle, and it stopped the cough almost immediately, and has not since returned, nor has he had any symptones of it since.
